In compliance with Section 3507(a)(1)(D) of the Paperwork Reduction Act of 1995, NIH has submitted to OMB a request for review and approval of the information collection listed below.

Proposed Collection: Center for Cancer Training (CCT) Application Form for electronic Individual Development Plan (eIDP), 0925-0762, Expiration Date 07/31/2022, REVISION, National Cancer Institute (NCI), National Institutes of Health (NIH).

Need and Use of Information Collection: The National Cancer Institute's (NCI) Center for Cancer Training (CCT) supports NCI's goal of training cancer researchers with various educational levels (postbaccalaureate, graduate students, postdoctoral fellows) and for varying periods of time (3 months to 5 years). The eIDP is an online, detailed questionnaire focused on responses to career and professional goals and expectations while the trainee works at the NIH. The eIDP ensures the trainees are receiving proper career and professional guidance, making appropriate progress, and determining activities to achieve their goals. The eIDP is also used to track trainees' career and professional goals and to ensure trainees receive the tools needed to achieve those goals. The eIDP will be administered electronically to new trainees as they on-board or to current trainees on a rolling basis upon their yearly appointment renewal dates. Electronic email will be used to request completion of the eIDP. The effectiveness of training could also be

enhanced by the reports received by the trainees completing the eIDP. Individual Development Plans have been collected by paper and pencil from trainees since 2001. Since approval of this Information Collection Request and since its inception, other ICs have come to know about the eIDP and want to join and have their trainees participate. This revision request is intended to add other ICs to the eIDP system.

OMB approval is requested for 3 years. There are no costs to respondents other than their time. The total estimated annualized burden are 2,009 hours.
